I do not favor ADM File# 2005-16. I believe this would cause significant delays in the informal hearings on civil infractions. The Courts are under strict Caseflow Management Guidelines which the State wants us to follow and with this new rule in place the Courts would not be able to meet the guidelines for civil infractions which call for 90% of all civil infraction cases to be adjudicated within 35 days from the date of filing; 98% within 56 days and 100% within 84 days. Most District Courts, with their civil infraction caseloads, are having an already difficult time scheduling the civil infraction cases. This rule would compound the problem.
